HOCKEY THRILLS GALORE THIS WEEK

Monthly Subscription Proposed to Finance Senior Hockey Team—League Expenses Require More Money Than Received in Admission Fees. Public Support Urged to Encourage Winter Sport.

A team in Alberta senior hockey league entails a heavy expense, the travelling expenses alone running into a large sum of money. It is estimated that the minimum amount required this season to meet expenses for the Coleman team will be \$7,000. This cannot be met from gate receipts, therefore a definite plan of raising money will have to be organized if Coleman is to continue in the league.

Proposals have been made at various times that a general monthly subscription be given by all who are employed in Coleman, 25¢ having been suggested. This, combined with admission fees, would give the team a margin to work on, but the feeling of being continually harassed by the knowledge that their financial status is always at a low ebb, causing considerable anxiety to the club executive.

Most of the other teams in this league have an advantage over Canadians, inasmuch as financial support. Judging by the good report given by the public to games here, they are in favor of continuing a club in the senior league, and the monthly contribution from all would help to secure good players as well

as encourage the local boys who are members of the team.

Were it not for the coal companies providing employment for the players it would be extremely difficult for Coleman to maintain a team in the senior league, as there are not sufficient openings in other lines of employment to provide jobs for players.

It is urged that all who desire to support Coleman Canadians as a senior league team use their influence to place the club on a more secure financial footing by the suggested monthly subscription. It will encourage a sport for which there is no equal in providing thrills, and as far as it is not for the hockey games played here the winter would be very dull indeed as far as sporting activities are concerned.

By all means get behind the club executive; give them the necessary support to enable them to hold their own with all other clubs in the league, and show your interest by agreeing to the monthly subscription plan. The fun and the thrills you'll enjoy will be worth far more than the small individual subscription.

GREEN COLOR DOESN'T BRING LUCK

Alan Easton, ice-maker at the Arena, thinks green colored posters advertising a hockey game are a hoo-hoo. He has a row of posters of various colors on the wall of the referee's room, and last year's games in the Kootenay League that were lost by Coleman were those advertised on green posters. Friday's game, won by Lethbridge by 3-1, was advertised on green posters. "What did I tell you?" exclaims Alan, following the game. "It's those darned green posters that did it." So, in order to see if there is anything in his hunch or superstition, The Journal will not print any more hockey posters on green paper.

DRUMHELLER AND LETHBRIDGE VISIT CANADIANS SATURDAY AND MONDAY

Two games will come to the arena this week end. Drumheller Miners, featuring the five Bentley brothers, and Lethbridge Maple Leafs, league leaders, will oppose Canadians Saturday and Monday, respectively.

This will be Drumheller's first appearance in the Pass this season, and the first game between the two clubs. The Miners are at present in third place in the league. They play wide open hockey that pleases the crowd. The fame of the five Bentleys has travelled to every part of the province. Visiting referees state that the veteran Bob Kennedy is the real danger threat to the Miners' attack, and should be watched.

A capacity house will greet the return of the Lethbridge Maple Leafs. Leafs admit their luck when they took

"CHISELLERS" AT HOCKEY GAMES

Ticket sellers at the hockey games complain of young fellows working at the mines earning \$4.50 per day

who, under the guise of posing as high school students, plank down 25¢ instead of 50¢ admission fee. In the rush of selling tickets it is difficult to check up these "chiseellers," but efforts will be made by club officials to stop this practice.

Another type of nuisance is the individual who pushes a \$20 bill up to the ticket seller when there is a line of people waiting to purchase tickets. To expedite the selling of tickets when a big rush is on, people are advised to try and have the right amount to present at the wicket.

away two points on their last trip here. Canadians are determined to get them back and are ready to take the ice and outplay the Leafs to get the two points. Canadians and Leafs, battling for sixty minutes, will be a game worth travelling a long distance to see.

Reserved seat tickets for Drumheller and Lethbridge games are on sale at McBurney's Drug Store.

CONTRACTOR D'APPOLONIA COMPLETES BUILDING AT CRESTON

Contractor J. S. D'Appolonia has recently completed a \$10,000 bowling alley and pool room for Frank Celli at Creston. Mr. Celli, a former Coleman business man, still continues his progressive policies in community and business life and has shown his faith in the future of this up-and-coming fruit growing district in the heart of the Kootenays.

The handsome building is one storey in height and has a full-length basement. Two bowling alleys have been laid, with space available for two additional alleys. Several pool and billiard tables are in operation and serve a much-wanted need in entertainment among the male population of the town.

CURLING AT STANDSTILL
Weather conditions curb curling activities at the arena. The bonspiel, scheduled for New Year's, had to be cancelled, and no games have been played since last week.

Bellevue curlers are making arrangements for the Crow's Nest bonspiel, to be held there on Monday, Jan. 16, when a large number are expected from Cranbrook to Lethbridge. Coleman will have several rinks pres-

Scoring Stars This Week

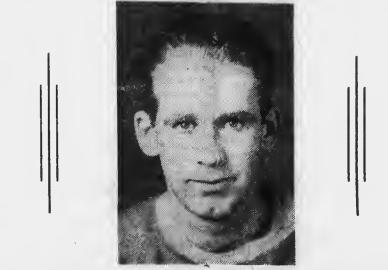

BEN REDISKY

Brilliant centre player, who on an assist from George Jenkins, sturdy juniors of Coleman, who has played and dependable left winger, scored in continuously since 1929, in intermediate and senior hockey.

GEORGE JENKINS

A player who graduated from the assist from George Jenkins, sturdy juniors of Coleman, who has played and dependable left winger, scored in continuously since 1929, in intermediate and senior hockey.

DAN SPROUT

Right wing player who on an assist from Jenkins scored Coleman's goal against Lethbridge in last Friday's game. It was the most brilliant game seen here since the days of the Selkirk boys. Redisky and Sprout are former

Fraser, Man., players.

AN EXPLANATION FROM HOCKEY EXECUTIVE

The Edmonton-Coleman game was played at Blairmore, owing to it being impossible to have the ice fit for play in Coleman. Mild weather and water dripping through the roof made the ice surface too slushy for play.

A slight frost will put Coleman ice in shape for Drumheller and Lethbridge games on Saturday and Monday.

The executive regret having to transfer the game on Tuesday last, but no other course was open. They realize it was disappointing to those who could not travel to Blairmore, and only under urgent necessity will games be transferred.

Junior Team In Limelight With Four Home Games and Four Away During Season

COLEMAN JUNIORS PLAY KEEN GAME AT FERNIE—FERNIE WON 5-3
(Fernie Free Press)

Capitalizing on penalties to their opponents, Fernie E. K. P. Juniors inaugurated their home season with a 5-3 victory over the Coleman Juniors in a regular Crow's Nest Pass Junior Hockey League fixture played in the local arena on Monday afternoon before a large crowd of home fans.

The first period opened at a fast clip with play going from end to end without either team getting a good scoring chance. Skillings brought the crowd to its feet when he broke through and had only the goalie to beat, but failed to get his shot away.

Wilson was chased to the penalty box, and at the 9th minute Jenkins scored for Coleman on a long shot from the blue line. Fernie had a good chance and a minute later Burt scored off a rebound. Jenkins was penalized and Johnstone put Fernie ahead when he scored on a pass from Cairns.

The result left Edmonton in undisputed fourth place in the league, with thirteen points. Coleman climbed into third place, one point above Olds. Canadians have two games in hand over the Edmonton sextet, and have nine points.

Scored in Second Period

The hotly disputed goal came after 14.20 minutes of play in the second period.

Coleman, continually driving

Edmonton behind their own blue line,

had the play in the Edmonton zone.

An Eskimo finally got his stick on

the puck inside his own blue line

and passed to Hayby, who stood alone

in the centre zone. Landis, standing

a few feet from Hayby, expected the

whistle to go for an off-side, and

made no attempt to stop him until too late.

Meanwhile Maveta had

Hayby's pass to sail in on

Kemp to score. Canadians protested

vigorously, but the referees had given

them their decision for a goal and were

adamant. It was one of the toughest

breaks that could come to a goal

and Canadians have certainly been

getting more than their share of them this season. Added to the disadvantage of being a goal down at

an illegal play, was the condition of

the ice, which made hockey well-nigh

impossible.

Determined to get the goal back,

Canadians played a bruising brand of

hockey and time and again were close

to the Edmonton net, but ice condition

prevented them from scoring.

Carrying the puck was impossible,

and both teams reverted to golfing

the puck up and down the ice.

Duke Kwasnie was given a misconduct penalty shortly after the disputed goal when he made a hot remark to Referee Johnston.

Coleman opened strongly in the

third to take advantage of the clean

ice before it again became too badly

cut up. Their offensive weakened a

little when Joyce was penalized. During

the ensuing power play, Edmonton

came close on one occasion, Kemp

saving the shot. Back at full

strength, Canadians again went on

the offensive and Williams had to

clear smartly. Coleman's sustained

power attack could not be held in

check forever, and Jenkins, playing

in old-time form in the heavy going,

passed to Redisky who slapped it

home.

Immediately following the goal,

play speeded up and both teams

showed to advantage. Soon, however,

Coleman dominated play and had

the Edmonton team bottled up behind

their own blue line, but were unable

to score.

In the overtime session, Coleman

completely dominated play, and but

for the few odd occasions, when Ed-

monton managed to shoot the puck

into the centre zone, play was around

the Edmonton net. Redisky had per-

Boy Scout and Girl Guide Notes

GOOD WORK BY GIRL GUIDES

Coleman Girl Guides performed a good service over the Christmas holidays, raising money to pay for hamper for the needy. About \$30 was raised from a tea held on December 10th in the Legion hall. Officers include Mrs. H. Claxton (captain), Mrs. R. H. Campbell, Mrs. J. Sivak, Miss Wilson and Dunlop, Mrs. A. B. Westworth, Florence McDonald, treasurer; Mrs. Hoyle, secretary. Meetings are held every second week in St. Albans' parish hall.

had the best scoring opportunity, when he broke through on Williams, but the puck refused to behave and he shot wide.

Referees For Saturday and Monday

appointed for this week-end's games are Bill Gate and E. Jones for the Drumheller game and Bill Johnston and Henry Viney for the Lethbridge game.

JELL-O ICE CREAM POWDER

East Or West, Home's Best

"Distant pastures are always the greenest" and "Distance lends enchantment to the view" are quotations which are frequently used to express the thought that it is a common human failing to believe that because something is far away it must be better than something analogous close a hand and that, therefore, that which is difficult of attainment must necessarily be more desirable than that which can be easily reached.

The adage is somewhat akin to the oft quoted declaration that "a prophet is not without honor, save in his own country and in his own home," and the same idea is contained in the moral of the fable about the rainbow and the pot of gold at the foot its arc.

The principle enunciated in these fables is the antithesis of the belief of those who subscribe to the doctrine that there are opportunities all around us were we but open our eyes and discern them.

It is natural that many people, consciously or unconsciously, agree with the impression that the best must be remote and conversely that the home product cannot possibly be so worthy.

How often, for example, one sees the spectacle of people flocking in large numbers and paying substantial fees to hear the visiting virtuosos from foreign lands and almost ignore home talent which may be comparable in worth and be capable of giving as great enjoyment. How frequently are people prone to lionize and laud statesmen, philosophers, scientists, litterateurs, lecturers and leaders of thought if they can claim some other country as their native heath and belittle and even sneer at their own.

And so it is in all spheres, walks and activities of life. If it is of alien origin or distant it must be good, but if it is native or nigh it is something to be deprecated or slighted.

Here And There

In the matter of higher education, for instance, it would be interesting to know why a number of westerners who are able to give their sons and daughters a college education deem it necessary or advisable to send their offspring to eastern universities or institutions in the United States or overseas, when the colleges of Western Canada are just as good and in some respects better.

There is an abundant evidence in support of this contention, available from students who have gone outside the Canadian west to secure degrees which could have been obtained in their home or adjoining provinces.

From parents of such students we have learned that the financial statement of the student could have done just as well, or even better, had they remained at home and at a cost, less expensive.

There is a freshness and virility in the atmosphere of Western Canadian universities entirely absent from those older established institutions of learning in the east and in other countries. Moreover, they are more up to date in many respects and the courses they offer are more appropriate to the probable conditions and circumstances which will surround their students after graduation, when they are thrown upon their own resources to make a living for themselves.

Further than this, there appears to be a greater incentive among the students to work and to think for themselves in Western Canadian universities than in similar institutions elsewhere, partly due no doubt to their environment, the high standards that are set, the calibre of the teaching staff and the earnest outlook on life which is the natural heritage of youth who have been reared under the spartan pioneering conditions which exist in a young country.

In many of the universities elsewhere, there is a tendency to draw class distinctions more rigidly than in Western Canada, leading in the direction of the development of a spirit of snobbery from which the West, fortunately, is comparatively free. Moreover, distinctions which tend to encourage students to fritter away much of their time in frivolous pursuits are less abundant in university centres in Western Canada than in some of the larger centres in the east and abroad.

While in the United States there are many universities whose graduates have achieved a high educational standard within their walls, on the other hand, there are many whose standards are very low and where even the best and most earnest students are not so well equipped after graduation to compete on equal terms with the products of home institutions in highly competitive fields of endeavour.

Spending For Others

Bearing these facts in mind it is not surprising that students of Western Canadian universities should be in demand in the business life of the great country to the south and that there is much truth in the complaint, heard frequently until recently, that money is being spent in this country to train students for the benefit of American business and American organizations and institutions.

On the other hand, there is occasion for considerable surprise that parents and students too, should express preference for tuition in "outside" universities and colleges in the illusory hope of securing advantages which are not to be compared with those offered by similar institutions here.

According To Old Records

A Matter Of Mirrors

Attempt To Walk On Water Cost Inventor His Life

Research workers of the Federal Writers' Project have found records of at least one attempt to walk on water. In 1861, according to the document found, a certain Rowlands alighted from a steamboat to take a stroll across San Francisco bay, wearing his own invention of "cane shoes with leggings." "Up to sunset," the contemporary document states, "his body had not been found."

A useful product of wisdom is that; a little of it goes a long way, socially.

STOP Itching TURTURE IN A Minute

For quick relief from the itching of eczema, blisters, pimples, ulcers, scabs, rashes and other skin eruptions, use **D. D. O. PRESCRIPTION**. Its gentle oil base is non-irritating and non-stimulating. It dries fast. Stop the most intense Itching immediately. A 5¢ tube lasts, at drug stores, probably many weeks. And for **D. D. O. PRESCRIPTION**—**5¢**

For every pound of silk produced in the world, there are 50 pounds of wool and 200 pounds of cotton.

Some horses are bred specially to produce hair for violin bows in Russia.

Old Time Barber

WINNIPEG TONITORIAL ARTIST RECALLS
EDWARD DAY IN THE WEST

Edgar Dowd, barber and hairdresser for 50 years, claims customers of the early days were more easily satisfied than those of the present day—excepting of course, the old-timer with the handle-bar mustache, which had to be trimmed just so—or else.

Back in 1888 when he came to Winnipeg from Perryville, Missouri, where he was born in 1870, it was just ordinary handclippers for a haircut and a straight razor and lukewarm water for a shave. Now the customer has to be swathed in hot towels before and after a shave. The speedy electric clippers have made the old-time hand clippers almost obsolete.

Most notable of his customers around the turn of the century included Sir Hugh John McDonald, Sir Edmund G. Head, Hon. Thomas Greenway, all former premiers of Manitoba, and Henry M. Stanley, explorer who searched for Doctor David Livingstone, lost in South Africa.

He also met Major Albert B. Rogers, who discovered the West in 1881 through the Rocky Mountains now known as Rogers Pass, which completed the line from east to west through the mountains on the Canadian Pacific Railway.

He is married and has four children. His favorite sport is golf and he shoots consistently in the low 90's. He says he will continue in the barber business as long as he is able because he likes it.

A Fortune In Trees

Black Walnut Grown At A Million Dollars

Sir William Mulock, former Chief Justice of Ontario, is a lover of trees. His devotion to them has made him a millionaire, quite apart from his other investments. Nor did he create this fortune by slashing down forests denuding land of its wealth in timber. He made it by the reverse process, by the planting of trees.

At his summer home 30 miles north of Toronto, Sir William has a black walnut grove which is valued at \$1,000,000. The trees are quite old, but still vigorous. They now are quite good sized and bound to become even more valuable with the passage of the years.

Trees are a hobby with Sir William, and he has made of it a profitable one. He has planted on his summer estate several types, all of which will develop into wood which is much in demand. This is the case with "black walnut" oak, etc., is constantly diminishing, thus adding to the value of the remaining trees of those varieties.—WIND-STAR STAR.

Censor For Every Paper

Czech-Slovakia Has All News Aproved Before It Is Printed

The editorial office of each daily newspaper in Czech-Slovakia has a censor who will determine what is fit for publication. Since the September crisis newspapers have been compelled to submit their editions for censorship before they could be issued on the streets, printed in mails or delivered to homes. The censor will decide in which edition what could be published and what not and new matter could not be set into type and approved.

That meant that many white spots appeared in the newspapers where material had been deleted at the last moment. Censors henceforth attached to editorial offices will see every piece of copy in the making and will pronounce their judgment immediately.

A young lady employed in a bank shot twice at an escaping bandit. She missed, but it must be said to her credit that she didn't hit him anybody else.

In the banks of Birmingham, England, pavilions have been added for the benefit of aged men, who are permitted to gather there to talk, or play cards, chess or dominoes.

TAKE THE LEAD OUT OF YOUR LEGS

Get Oxygen In Your Blood and You'll Get The Gas That Sends You Boundin' Up The Stairs

People who smother to death die because they can't get oxygen to their brains. Just as surely you are slowly smothering if your blood lacks red corpuscles. They carry the oxygen you breathe in to every part of your body. If you have an iron-carrying corpuscles, your kidneys, liver, heart, lungs, brain, etc., will be healthy. Get Dr. Williams Pink Pills. They'll get you pale, often plump. Your nerves will be healthy—your tires quickly—your nerves recovered.

What you need is Dr. Williams Pink Pills. They'll get you pale, often plump. Your nerves will be healthy—your tires quickly—your nerves recovered.

Get Dr. Williams Pink Pills. They'll get you pale, often plump. Your nerves will be healthy—your tires quickly—your nerves recovered.

Over 1,000 physicians prescribe Dr. Williams Pink Pills.

Rust-Resistant Wheat For First Time Spared A Major Catastrophe

Ottawa.—Looking back over 1938, a leading federal agricultural department grain expert termed it an "historic year" which saw new Canada for the first time spared a major catastrophe on account of wheat rust and the farmers saved \$30,000,000 in the scientific development of rust-resistant varieties.

Dr. L. H. Newell, a Dominion cerealist said the new year is being faced confidently with the knowledge that there will be enough rust-resistant seed for every producer of spring wheat in Canada and the greatest of crop hazards will pass into history.

"Although rust was present this year in epidemic proportions the fact that more than 3,500,000 acres were occupied by rust-resistant wheats in Manitoba and eastern Saskatchewan minimized the damage which otherwise would have been wrought," he said.

"Indeed, careful calculations have shown that the savings effected by these epoch-making creations amounted to probably not less than \$30,000,000."

This triumph over the rust scourge has not ended the work of the Canadian farm scientists in this field. On the basis of experiments with original rust-resistant wheat, Renuco, Thatcher and Apex, two other new and promising varieties are now being developed at the Dominion rust research laboratory in Winnipeg. They have been designated as R.L. 975.1 and R.L. 1007.

"These wheats have ranked particularly high in experimental baking tests made in Canada and also possess certain agronomic characteristics which may appeal to wheat growers in certain areas," Dr. Newell said.

"Since there may be a place for one or the other of the varieties, it was decided as a final test to have a commercial baking and baking test made of them in England. Using Thatcher as a measuring stick, the test is now actually under way and will be reported upon within the next few weeks."

The government grain scientists plan to concentrate now on rust-resistant wheats which will ripen earlier and varieties which will thrive under dry conditions.

Chaos In Nanking

Reported District Occupied By Japanese Has Been Plundered

Shanghai.—M. S. Bates, professor of history in Nanking University, reported that "armed chaos" existed in the Nanking region which the Japanese occupied Dec. 14, 1937.

"During the past year the area has been thoroughly plundered with the process continuing; privation is common, with life maintained on distressingly low level," Bates, an American, said in a report to the international relief committee. Neutral observers considered the findings typical of conditions in other Japan-occupied regions.

Montana Earthquake

Helena, Mont.—A three-second earthquake was felt here at 3:53 p.m. Dec. 28. The federal weather bureau reported it was felt throughout the city and as far as the smaller town of East Helena, six miles away. No damage was reported.

Aviation Plan

Washington.—President Roosevelt, it was reported, has approved a far-reaching program to train large numbers of youths as aviation mechanics.

Says France Is Not Willing To Concede Any Land To Italy

Paris.—A person close to the government said France is willing to grant some colonial concessions to Italy to keep the peace of Europe but without actually yielding any land.

After putting up a strong military and naval front to discourage French ambitions for territorial expansion at expense of the French empire, Premier Daladier's government was described as "ready to open diplomatic negotiations to appease the Italian hunger."

Two French warships and Sennalese troops were en route to Djib-

Explorer Loses Life

Young Britisher Is Drowned In Waters Of Fox Channel

Churchill, Man.—Reynold Bray, 21, British explorer, was drowned last September and his companion, Patrick Baird escaped with a similar fate when their small boat was crushed in the ice in Fox Channel near Igloolik, 200 miles within the Arctic circle, according to word received from Repulse Bay recently.

Baird, who spent two years in the north with the British-Canadian Arctic expedition, coming out in 1937 is a nephew of Lord Tweedsmuir, governor-general of Canada. He was returning north when the mishap occurred.

Word of the Arctic tragedy was brought to Repulse Bay by an Eskimo from Igloolik, 800 miles north of Churchill, northern Manitoba seaport. Baird according to the Eskimo's report, scrambled from the icy waters and made his way overland to Igloolik where he and his companion had intended to establish a main base for winter exploration.

The two explorers left here Aug. 15 in the motor sloop Therese, a Roman Catholic mission supply boat, for Igloolik. Heavy ice prevented the Therese from reaching the Arctic settlement and with the supplies unloaded on to a small island, the young Brits headed to continue by small boat to their northern base. In Fox Channel heavy ice floes were encountered and the tiny craft was trapped and crushed.

Was War Commander

Brigadier-General Hugh Dyer Dies At His Home In Manitoba

Minnedosa, Man.—Brigadier-General Hugh M. Dyer, C.B., C.M.G., D.S.O., five times mentioned in despatches during the Great War, died here after a two weeks illness. A prominent agriculturist, he was 79.

Born in County Dublin, Ireland, he was educated at the Royal Naval School, New Cross, London, and came to Canada in 1881, settling in this district 50 miles north of Brandon.

When the Great War broke out he went overseas as second in command of the 5th Battalion with the rank of major. He was twice wounded and in 1917 was made brigadier-commander of the 7th Infantry Battalion.

After the close of the war he commanded Canadian troops in the Flanders area of England.

He is survived by four sons, three here and Harry in British Columbia.

To Encourage Trade

Runoff That Government May Make Reduction In Sales Tax

Ottawa.—Humors, apparently with considerable foundation, are circulating in financial circles that when the government's budget is presented to the coming session of parliament, in addition to tariff reductions and removal of the special three per cent excise tax on a long list of items, the much-complained-of eight per cent sales tax may be reduced to six per cent. Weight is lent to this report by the fact that the whole drive of the government at present is to encourage trade in every possible way. The sales tax has always been regarded as one of the greatest obstacles to reviving business.

According to these reports a record will be established by bringing in the budget early in February, not more than a month after the house assemblies on Jan. 12.

World Trade War

Reich Pitting Its Strength Against Democratic Countries

Berlin.—A world trade war, with the Nazi reich everywhere putting its economic methods and propaganda machinery against the influence of the pound sterling and the dollar, was forecast for 1939 in informed circles.

While a high official in the economic ministry reaffirmed Germany's determination to strengthen its commercial hold in southeastern Europe, the press warned Germany would give the United States serious competition in South America.

At the same time Berlin's intention of extending its dealings in the Far East was evidenced by the animosity with which high Nazi quarters commented on Anglo-American credit grants from Repulse Bay recently.

Rudolf Brinkmann, reich secretary of state in the economics ministry, touched incidentally the South American situation in an article in the annual review of the Berlin chamber of commerce. He prophesied that increased trade, goodwill and understanding will result from the new

LAUDS TRADE FACT

Speaking in Boston recently, President Miller A. Dwyer of New Bedford lauded the recent trade treaty between Great Britain, United States and Canada. He prophesied that increased trade, goodwill and understanding will result from the new

To Train Pilots

U.S. Has Plan For Giving Instruction To College Students

Washington.—To provide pilots to man United States fighting planes in time of war, President Roosevelt approved a plan for giving a course of instruction to 20,000 college students annually.

"Only by such an approach," said a simultaneous statement from the civil aeronautics authority, "can the United States adequately safeguard itself against the vast aerial militarization programs now being pursued."

Both the president, who announced the plan in his press conference, and the authority said that the prospective pilots would be trained first of all for civil aviation. The result it was hoped, would be a stimulus of interest in private flying and a consequent increase in the productivity of United States aircraft factories.

"We know that there has been great bitterness between nations," Hull said in his prepared address. "We know that in much of the world there may have to be exert the 'utmost vigilance' to resist the spread to this hemisphere of militaristic systems which threaten to rule the world,

NOTES AND COMMENTS

A NEW YEAR opens. What is the program for local improvements? This question will occupy the attention of the town council following the election for councillors in February to fill vacancies caused by the three whose terms expire.

THE COUNCIL has a limited revenue of not more than \$16,000 annually to meet all expenses of improvements, maintenance, policing, lighting of streets, relief to unemployed and payment of office salary. Nobody can dispute the fact that under the present mayor's administration, there has been far more value received in improvements for the money expended than ever before. Unemployment relief costs have been kept down through the necessary and useful work provided for men who otherwise would have been a direct burden of cost on the ratepayers. Even at that, with all the care possible exercised, a considerable slice of taxpayers' money is paid out in supplies for relief recipients, as shown by the monthly accounts.

DURING the year there was an increase in school taxes. The school district requires about three times as much revenue as the town council. Some have asked if a reduction in taxation could be made. In school requirements it is not likely, judging from the experience of the trustees in fixing the 1938 assessment and the appeals which followed. Neither can it be accomplished for town purposes. Even were it reduced by one or two mills, the amount is so small to the average ratepayer that it makes very little difference in his annual expenditures, while it would mean the difference to the town of paying its way and maintaining a fair standard of improvements or allowing the streets to go without repairs. It must be remembered that for a town of approximately 4,000 people, town taxation is comparatively light. Of course, part of that 4,000 do not pay taxes to the council, as they live outside of the incorporated area, but they enjoy the use of the facilities provided by the taxpayers of the incorporated area, which fact has sometimes raised the point of the advisability of extending the incorporated area to include the outside area.

SOME DOUBT has been expressed by Mayor Pattinson if he would continue to fill the chair as head of the council. It would be difficult to find a successor who would give as much of his own time and energy in the ratepayers' interest. Serving the public is one of the jobs the only reward for which is the satisfaction one has of having assumed his share of responsibility as a citizen who desires to contribute to the progress and welfare of the town in which he lives. Criticism is freely made, oftentimes unfairly, of those who fill the offices of municipal administrators. One can become weary of well-doing, particularly if he does not receive the support and co-operation of colleagues on a council or administrative board, and at times Mayor Pattinson has expressed a desire to be relieved of the responsibility after having served for eighteen years as councillor and mayor.

IT IS The Journal's opinion that his policies have found favor with the majority of ratepayers, for the record is evidence of economical administration. Ratepayers' money can very quickly be dissipated without receiving value if a close watch is not exercised on the details of expenditures and the cost of local improvements.

The world seldom takes us as seriously as we take ourselves.

THE HOLIDAY season passed off without any untoward incidents to mar the occasion. On Christmas Eve some individuals became noisy and objectionable through having had too much of the cup that "jeers," making it necessary for some restaurants to close long before the usual hour to avoid disturbance and damage in their premises. That is one of the drawbacks to uncontrolled drinking of liquor by people who lose all sense of decency after imbibing a few drinks of intoxicating liquor. They become a most objectionable nuisance, which is the least one can say.

THE TOWN council has the power to curtail nuisances such as this, as was demonstrated when they compelled the bars to close on pay-days for two hours during the middle of the day on several occasions. Complaints from wives who saw their husbands' earnings being squandered, caused the council to take action to break up some of the all-day parties which would meet in the beer parlors. Added to that was the disturbances which would occur on the streets from lack of control of those who didn't know when to stop drinking. If the licensees of hotels in any place, no matter if it be here or elsewhere, wish to avoid the onslaughts of temperance forces to place more restrictions on the licensed trade, then they must see that they do their part to minimize these disturbances. The government is a partner in the business, and must necessarily take its share of criticism if the provisions of the liquor licensing laws are not closely adhered to. Of course, there is plenty of drinking from bottles of spirituous liquors sold at government stores, for which hotel keepers cannot be held responsible. But the point is, if the liquor trade wishes to retain its privileges, it must hew to the line. A tide of public opinion can exert a wide and powerful influence when aroused.

A BRIGHT SPOT in Christmas festivities for several years is the treat and theatre party given by the Elks' lodge. In addition they supply hamper to worthy people to make Christmas more cheerful. Approximately \$200 is used from their funds for this purpose, and all will agree that it is spent in a very commendable spirit of real service. An organization such as this justifies its existence by the good work it renders in the community, so that all will join in wishing more power to the Elks' lodge, the big "Brother Bills" of the town.

MUST travel the miles 'till the journey is done,
Whatsoevers the turns of the way,
I shall bring up at last at the set of the sun,
And shall rest at the close of the day.
Let me deal as I journey with foeman and friend

In a way that no man can assail,
And find nothing but peace at the roadway's last bend,
When I come to the end of the trail.

We are brothers who travel a great, common road,
And the journey is easy for none.
We must succor the weary and lift
the load
Of the pilgrim whose courage is done.

Let me deal with them each on my way to the west
With a mercy that never shall fail,
And lie down to my dreams with a conscience at rest.

When I come to the end of the trail,
he asked.

"Don't mind, sir; what is it?" replied the boy.

"Well, my manager is looking for a lad like you to play the fool."

"Oh, he is, is he? What's his idea

Announcement

St. John Ambulance Association draw for two \$5.00 cheques awarded as door prizes at the annual dance on New Year's Eve was made in the retunda of the Grand Union Hotel on Monday, Ticket 425, purchased by A. Opremacak, and Ticket 466, purchased by V. Colagrossi, were the winners. — Signed: Ethel LeRoy, Calgary; William Antle, Chief of Police.

Local News

Joan Hayes, of Creston, was the guest of Mr. and Mrs. George Derbyshire over the holidays.

The hockey team were the guests of Mr. George Kellogg for a social hour at his home on Sunday.

Mr. and Mrs. William Penman, of Michel, accompanied by Mr. Bob Penman, were the holiday guests of Mr. and Mrs. John Anderson.

Miss Bessie Davies, Hillcrest school teacher, was the guest of Mr. and Mrs. Matthew Wilson during the holidays.

Miss Janet Gillespie, night superintendent at Drumheller hospital, spent the New Year holidays with her parents, Mr. and Mrs. Dan Gillespie.

Miss Nettie Gardner, nurse-in-charge at Holy Cross hospital, Calgary, was the guest of her grandparents, Mr. and Mrs. Matthew Wilson, on Christmas Day.

Mr. and Mrs. George Kellogg were at home to many friends from Coleman and other Pass towns on New Year's Day and the following day, following their usual custom.

Dr. Evelyn Aiello, of Moose Jaw, Dr. Emil Aiello, of Coleman, and Miss Eleanor, student of Edmonton University, were home visiting their parents, Mr. and Mrs. Joseph Aiello, for the holidays. — Fernie Free Press.

Miss Irene James, high school teacher at Coaldale and daughter of Mr. and Mrs. I. A. James, spent the Christmas holidays at Vancouver, the guest of her grandmother, Mrs. J. Burns, former Coleman old-timer.

A Remington portable typewriter provides up-to-date writing facilities for business or private correspondence at a low cost. These famous machines can now be purchased from \$39.50 to \$80, with a small additional charge if purchased on the monthly payment plan. The Journal office will gladly give information.

A large good-natured crowd from all Pass towns filled the hall to capacity at midnight Sunday, giving the local branch of St. John Ambulance, who sponsored the dance, a good boost in building up funds to carry on their work throughout the year.

The interior of the big corner store is being renovated under the skilled brush of Andy Thorburn, and will be occupied on January 15 by Joe Spiek's Grocery and by Robert Bell, who was in charge of the meat department of the Ledieu store. Both these young business men hope to secure a goodly share of the retail business of the Pass towns.

Good quality bond paper, white, 8½ x 11 inches, 500 sheets in cardboard box for \$1.85, at The Journal.

When I come to the end of the trail,

he asked.

"Don't mind, sir; what is it?" replied the boy.

"Well, my manager is looking for a lad like you to play the fool."

"Oh, he is, is he? What's his idea

— to fire you, or to keep two of us?"

Same Result
"Did you ever make your living writing poetry?"

"No, but I got lost in the woods once, and didn't eat for a week."

The Churches

THE UNITED CHURCH

The regular services will be held on Sunday, with the Sunday school after the morning service. The school has already begun a new year of effort. Parents are asked to see that the children attend as regularly as possible. Newcomers are cordially invited to attend the school sessions.

The winter communion will be observed at the morning service on Jan. 15. Communicant members and friends are asked to keep this in mind. The Crusade boxes will be returned at this service. Anyone who has not responded to the year-end appeal for funds is asked to do this as soon as possible. Annual reports will soon be due and everyone's help is needed. The senior choir, already busy with a lot of new music, will lead the singing at the evening service on Sunday.

CHURCH OF THE NAZARENE

Pastor: Rev. C. Helen Mooshian. Services: Sunday school at 11 a.m. Morning worship at noon; message by the pastor. Evangelistic service at 7:30 p.m., special music by Mrs. D. Swarth.

Tuesday at 7:30 p.m., Bible study, last lesson on the Book of Psalms.

Friday afternoon at 8 o'clock, junior missionary meeting.

Friday, 7:30 p.m., prayer meeting. Miss Berglund was called away this week to labor in a home mission field in High Prairie and Mrs. D. Swarth is here taking her place for a few weeks until the new assistant arrives in Coleman.

There will be a special week-end meeting with Rev. D. Swarth, Jan. 12-15. He is now attending the general board meeting of all the general officers of the church, in Kansas City, Missouri.

Strangers and visitors are always welcome to these services.

MR. AND MRS. I. A. JAMES CELEBRATE SILVER ANNIVERSARY

Happiness and gaiety reigned supreme at the home of Mr. and Mrs. I. A. James on New Year's Eve, when relatives and friends gathered to celebrate their silver wedding anniversary.

Mr. and Mrs. James were married in Coleman in 1913 by Rev. T. M. Murray, Institutional church minister at that time. Their family, Miss Irene, now high school teacher at Coaldale, and John, now employed with one of the mining companies, attended Coleman schools.

Mr. and Mrs. James were the recipients of a chest of silver from the family, and a silver rose bowl and silver cake basket from their relatives and friends.

Relatives and friends from out of town included Mr. and Mrs. J. Burns, of Clarendon, and Mrs. Penn and son, of Hillcrest.

WEDDED ON NEW YEAR'S EVE

A pretty wedding took place at the home of Mr. and Mrs. Robert Gillies on New Year's Eve, when their only daughter, Margaret, became the bride of Mr. Nelson Fleming, second son of Mr. and Mrs. Neil Fleming, of West Coleman. Rev. H. J. Bevan conducted the wedding ceremony.

Attendees were Miss Helen Nash and Mr. William Kinear.

During the evening, many friends called on the happy couple to wish them happiness.

The bridal couple will reside in Coleman, where the groom is an employee of International mine.

POETS

"If poets are 'odd' at all, they are odd because of a competitive civilization in which men are judged by the money they earn." — Alfred Kreymborg.

MOST MODERN HOTEL in the CROWS NEST PASS

Announcement

Mr. and Mrs. A. A. Pruett, formerly of Nordegg and Cochrane, Alberta, announce the taking over of the management of the GRAND UNION HOTEL as from January 1st, 1939.

They extend a hearty invitation to the people of the Crows Nest Pass to avail themselves of the complete service furnished by this hotel.

ORIGIN OF "SILENT NIGHT"

The breakdown of an organ in a tiny church at Oberdorf, Germany, on Christmas eve of 1818 led directly to the composition of the classic religious song, "Silent Night" (Heilige Nacht). Special music for the church's Christmas festival had been prepared, but when the organ broke down, it was out of the question. Only a guitar was available as an instrument. So the assistant pastor dashed off a poem, went to the organist's home and asked him if he couldn't arrange a simple melody for two solo voices and a chorus to sing the poem to a guitar accompaniment. The organist said he'd try—and then and there jotted down the music. The next morning at the little church, the greatest of all Yuletide songs was sung for the first time.—Neal O'Hara

ment. So the assistant pastor dashed off a poem, went to the organist's home and asked him if he couldn't arrange a simple melody for two solo voices and a chorus to sing the poem to a guitar accompaniment. The organist said he'd try—and then and there jotted down the music. The next morning at the little church, the greatest of all Yuletide songs was sung for the first time.—Neal O'Hara

GRAND UNION HOTEL UNDER NEW MANAGEMENT

The Grand Union hotel passed under new management on January 1. Since it was built in 1924, it was managed by the late William Bell, who passed away in November, and associated with him in the efficient management and operation of the hotel were Mrs. Bell and daughters Margaret and Mae. Mrs. Bell will take up residence in her private home, purchased during the year.

Mr. and Mrs. A. A. Pruett, who took over on Jan. 1, were in the hotel business in Nordegg, Alta., for 17 years, and later at Cochrane. The latter business they turned over to their son Tom, who was married during the year.

Mr. Pruett is no stranger to the Pass towns. Prior to 1914 he lived at Hosmer, and played football with some of the old-time players still living in the district. In 1915 he went overseas and served in France with the Manchester regiment of the British Army. He went to Nordegg on his return to Canada. His son Tom, now at Cochrane, was born at Hosmer. He states he will be glad to renew acquaintance with all old friends who are still living in the district, as well as new.

Their daughter, Nellie, will live here with them. They extend a hearty invitation to the people of the Pass towns to avail themselves of the service of this fine hotel.

ANNIVERSARY OF WEDDING—
MR. AND MRS. LASLETT

AT OLDS

The Olds Gazette contained an interesting report on the silver wedding anniversary of Mr. and Mrs. Roland Laslett, when their friends gave them a surprise party. Mrs. Laslett was the recipient of a beautiful silver cake dish. Mr. and Mrs. Laslett were married in Calgary, where they lived for many years, and about 1929 they came to Coleman, and after a few years in business in the building where Webster's store is now established, they entered into business at Olds. Old friends here will join in congratulating them on this anniversary, and wish them many years of continued happiness.

Complaints Of "Chisellers"

Private individuals living in town who sell articles in competition with regularly established business houses should be compelled to pay a license. For instance, there are cases of men working in the mines who on idle days go out selling Christmas cards and other articles sold by local stores. Stores pay a tax to sell these things. The unfairness of such a form of competition will be apparent. Mineworkers are protected by a union, and would not permit practices against any individual in their union such as some practice against local tradesmen. It is just plain "chiselling" on local business.

Mrs. T. M. Brown, of Spring Point, is the guest of Mrs. Tom Holstead.

From Distant
Friends

Many greeting cards and messages were received from Journal readers in various parts of Canada, which were sincerely appreciated. The most distant from the west was from Mrs. Fred Thom, of Chemainus, Vancouver Island, and the furthest east from James Cullen, formerly of the Bank of Commerce staff here, now engaged in insurance business in Halifax, Nova Scotia.

2-1 Score--Maple
Leafs vs. Canadians

Chance Shot by McIndoe Gave Lethbridge Victory—Dan Sprout Scored for Coleman.

The most spectacular and thrilling hockey match played in recent years was that seen at the arena last Friday night between Lethbridge and Coleman. By a chance shot within a minute of the close of the game, Lethbridge won by a 2-1 score, after a game in which Coleman had the edge of the play throughout. Though it was keenly disappointing to Coleman supporters to see the home team lose after such a hard-fought game, the boys justly earned the admiration of the spectators, the largest attendance so far this season.

Against a team such as Lethbridge, with its advantages of artificial ice and players who have had plenty of practice, the performance of Coleman team was highly gratifying, and showed that they are a match for any team in the league to give the "fans" a run for their money.

Mrs. McMahan, of Vancouver, is spending a few days at the home of her daughter, Mrs. H. Claxton, and Dr. Claxton.

Rev. J. R. Hague spent New Year's holidays at the home of his parents in Raymond district.

MISCELLANEOUS

Among the improvements at the post-office is a wide shelf to serve as a desk for people to address cards or attend to mailing letters or parcels. It is a very convenient place to lean against and place your elbows on and relax. In fact, even while the carpenter was nailing the brackets to the wall to support the shelf, a tired individual almost laid down on it, so inviting did it appear, or else he was so lazy he couldn't stand up.

Self

"Even the most serious-minded men, preoccupied with the horrors of the Japanese invasion of China, cannot help noticing the pleasant flavors of the things they are eating.—Robert Lynd.

Hy!

The garage-keeper's little girl had never seen a dachshund before. "Look, mother!" she exclaimed. "See what a long wheel-base that dog's got!"—Life Digest, Australia.

Our Advertisers Show By Their Actions
They Believe What They Preach!

They certainly deserve and receive the business of worth-while customers, for their advertising in this paper not only inspires confidence, but also goodwill. It shows that they believe in home buying, support of local industry, and therefore practice what they preach in urging you to purchase from them.

There are others who allow "George to do it," while they enjoy the benefits that accrue from the efforts of others. A worth-while business man who enjoys the confidence of the people is usually found taking his place as a sharer of responsibilities in community organizations, in the Board of Trade, a member of the town council, a member of the school board,

or an active worker for his church, a booster for young people's sports organizations.

It is men of this type who are the real builders of a community, and they indeed deserve the business which comes their way through their efforts to be of service to their fellow citizens.

It is men of this type whom The Journal is pleased to boost whenever opportunity offers. We are proud of them as advertisers in The Journal, and we urge the people of Coleman to purchase from them as they help to make possible the production of a worth-while community newspaper.

To our advertisers, our subscribers and all in the Crows Nest Pass who have in any way contributed to the success of The Journal during the past year, may we express our sincere appreciation, and the hope that they, too, may benefit in increased business and goodwill during the year just commencing.

**We Boost for Those Who Boost for Us
---Reciprocity Is Our Motto**

1939 Greets You With a Smile

WORLD HAPPENINGS
BRIEFLY TOLD

Kites will be laid soon for three minelayers to be built under the British 1938 naval construction program.

The executive committee of the World Jewish congress accused the government of the free city of Danzig of organizing a pogrom to drive Jews out of the Nazi-free city.

Effective Dec. 25, the fixed value for duty on every imported item in Manitoba, Saskatchewan, Alberta and British Columbia has been suspended.

A windstorm caused damage estimated at \$1,000,000 on the outskirt of Sydney, Australia. One person was killed and 18 injured, and 240 houses wrecked.

Telex, official news agency, reported Soviet Russia decided to close her consulate at Milan, Italy, because of a "hooligan attack" by Italian Fascists during an anti-Fascist demonstration.

British Columbia this month has shipped around 2,000,000 Christmas trees to all parts of the continent, the provincial forest branch estimated. Last year 1,725,000 trees were exported.

Three little girls and a boy have been killed by leopards terrorizing villages on the side of Mount Garhwal, India. The animals have been driven by hunger from the snow-covered mountain heights.

A resolution calling upon the department of national defence to arm the port of Saint John against the possibility of hostilities involving Canada was passed by the common council of that city.

From an 8 x 10-foot cinema screen world-wide news bulletins will be flashed hourly at the Christian Science Monitor Building throughout the entire duration of the 1938 Golden Gate International Exposition.

R.C.M.P. Band

Leader Hopes To Develop The Best Band In Canada

To the veteran strolling around Royal Canadian Mounted Police barracks square at Regina, stirring notes drifting on the frosty air brings memories of the police bands of long ago, with all their brass and beards.

But there is not a band in the band that to-day is carrying on where the R.N.W.M.P. left off about 30 years ago. Only six of the 34 players are over 20 years.

Staff Sergeant J. T. Brown, former director of music in The Governor-General's Foot Guards, Ottawa, affectionately calls his players "My Boys" but in them he sees splendid talent that he hopes will develop into the best band in Canada.

In gathering "My Boys" in a recruiting trip across Canada recently, it was not lack of musical talent that gave most difficulty but strict regulations which govern recruits and which are applied to the bandsmen.

On a basis of 50-50 representation between the Eastern and Western part of the Dominion, a band was chosen which virtually represents the pick of the country's younger musicians for the first R.C.M.P. band in 30 years.

The bandmen to-day are receiving regular police training in addition to three hours at practice.

The Newest Discovery

Noted Woman Scientist Finds Coating That Makes Glass Invisible
Discovery of a coating that makes glass invisible was announced at Schenectady, N.Y., by Dr. Katharine B. Blodgett, noted woman scientist.

Ordinary thicknesses become clear as air, and reveal how much human eyes have been missing in looking through even the finest glass. Purist glass transmits about 92 per cent. of light against more than 99 with the new coating. A coated pane is visible only by its dimly outlined edges.

The glass never reflects light from any angle whatever.

Going Back Empty

Return Of Steel Bottles Means
many Get No helium

Germany has recalled 200 empty steel bottles—bottles the Nazis had hoped would come home filled with helium, the non-inflammable gas that might prevent another Hindenburg Zeppelin disaster. The bottles sailed for Germany from the Nazi freighter *Identwelt*. The incident was considered definite indication the United States had decided not to sell Germany helium for her commercial lighter-than-air craft.

Pearls sometimes are found floating in the milk of coconuts.

Twice as many men as women wear spectacles.

Was Pronounced Success

Closing Date For Canada's Art Show
London Extended Twice

Canada's art show—"Century of Canadian Art"—in London's famed Tate Gallery, has been a pronounced success. H. C. McCurry of Ottawa, assistant director of the National Gallery of Canada, said at Halifax. The exhibition includes canvases painted in every province in the last 100 years.

Mr. McCurry, who arrived from England on the liner *Montrose*, said the Canadian group was the first Dominion exhibit to be honored with a place in the Tate Gallery. It drew a greater attendance than any recent exhibition there, and the closing date had to be extended twice. The show will close this month.

Invitations to show the Canadian pictures in other large British cities and in Brussels, Belgium, had to be declined because many of the important works were borrowed from other Canadian collections and could not be loaned for a extended period, he said.

While in London, Mr. McCurry said he made arrangements for several "important" exhibitions of British art to come to Canada in 1939 and 1940. These collections will be shown in all parts of Canada under auspices of the National Gallery.

Home Packed With Goods

Death Of Recluse Reveals Clothing And Furniture Never Unpacked

The executors of Edgar A. Bogart's estate, after weeks of hard work still don't know the full value of the property left by the 75-year-old retired bank employee of Newmarket, Ont., who lived the life of a recluse.

When the executors entered Bogart's home after his recent death they found the house jammed with furniture, coins, weapons, china, clothing, newspapers and other oddities collected over a period of years. A staff of men has been attempting to catalogue the assorted objects for weeks.

Each room in the house, which no one but Bogart had entered in 10 years prior to his death, was piled with his belongings to such an extent that only narrow passages from door to door were left open. Hundreds of Great Lakes worth of furniture and clothing, bought years ago and never unwrapped or uncrated, were stored within the house.

A VERSATILE BOLERO FROCK
By Anne Adams

Magnet for all eyes is this bolero dress, so becoming to all figures from "fourteen to forty-two!" Your spirits will be the complement you shall fit in—fact they'll be magnetized as soon as you see the Sewing Instructions of Pattern 4932, for the making is very easy. A few hours of hard work will result in an instant frock to tide you out right into spring. Let the bolero match or contrast—have the neckline high or low, the sleeves short or long—use buttons and bows, or a belt with an all-around or half-belt, any way you make this new "humble" bolero smart. Don't miss the action piece of the skirt, and the gay upcurve of the waist!

Pattern 4932 is available in misses and women's sizes 14, 16, 18, 20, 22 and 24. The cost of the pattern takes 3% cents 20c in coin (patterns cannot be accepted) for this Anne Adams pattern. Write plainly and send a stamped, self-addressed envelope and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 176 McDermot Ave. E. Winnipeg.

Notes on Town Council Meeting

A regular meeting of the town council was held on December 20, with the following present: Mayor Pattinson, Councillors Plante, Ambrose, Burrows, Chapman and White.

The provincial bureau of relief advised the council they would give 60% of the cost of Christmas allowances, not to exceed 80c per person.

A letter from a person seeking relief, owing to her husband being a patient in a sanitarium, was ordered tabled till the next meeting.

Kamloops Board of Trade advised the council that travel films would be shown here on January 17, provided the council would provide the hall and cost of advertising. The council has asked the Board of Trade to co-operate in this proposal.

A letter from Wood Christian Homes, asking for a grant, was filed.

An application for a Mother's Allowance of \$50 per month was received.

The report of Dr. Rose, medical health officer, pointed out the condition of certain lots adjoining the business area, and the council instructed the secretary to forward letters to the owners, pointing out the matters requiring attention. The doctor will be asked to furnish bi-monthly reports.

A letter from the National Committee was filed.

The school board advised the council that there will be three vacancies to be filled on the trustees board through time expiry of the terms of present trustees.

The voter's list to be used in the 1939 municipal elections will be those prepared during 1938.

The changing of lighting at the rink and separate switches for lights in the business area was left for the Light and Water committee to attend to. Coleman Light & Water Co. will be requested to purchase additional material for additional street lights.

Accounts passed: Provincial Treasurer \$109.20, John Salvador (for rink) \$521.75, Provincial Treasurer (mothers' allowance) \$27.50, Morrison Agencies \$25.00, Coleman Light & Water Co. \$222.75, McGillivray Coal Co. \$34.50, Charles Makin \$6.50, A. E. Ferguson \$20.00, Coleman Cafe \$5.70, W. M. Gate \$14.40, S. Janostak \$10.00, W. Bobbitt's store \$54.40, Gate & Sherratt store \$35.20, Holy's Grocery \$43.00, Sartoris Lumber Co. \$2.40, International Coal Co. \$14.08, Sam's Service Station \$9.25, Coleman Service Garage \$12.95, Sentinel Motors \$94.42, Sheld's Store \$10.00, Booth Memorial Home \$12.00.

RIALTO BILLIARD AND POOL TOURNAMENTS COMPLETED

The annual Christmas billiard and snooker tournaments, sponsored by Rialto Pool Room, have been completed after one month's play. Many thrilling games were witnessed, which is a tribute to the judgment of handicapper Jack Hopkins, who managed the competitions.

The billiard tournament was won by E. McLeod, who defeated H. Spievak in the final, 200 to 186. B. Fontana won the consolation prize, since he lost in the first round to the final winner, McLeod. Thirty-eight persons were entered.

Jackie Nelson provided the fireworks in the snooker competition, bowing over all opposition and defeating R. Dunlop in the final 163 to 144. Frank Kilgannon, who lost to Nelson in the first round, won the consolation prize. Forty entries were received in this competition.

"CANADIAN COAL FOR CANADIANS"

Help provide increased employment by boosting for Canadian Coal. Railroads should use all Canadian Coal, Eastern Canadians should use it. The coal industry is one of Canada's major industries. And, remember to

Have Your Freight Shipped by Rail
and increase employment for mineworkers
